Education

Swami Keshvanand Institute of Technology

Bachelor of Science in Computer Science

Sep. 2023 – May 2027

Jaipur, Rajasthan

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Artificial Intelligence
- Operating System
- Software Methodology
- Database Management
- Computer Graphics
- Computer Networks

Experience

KisTechnoSoftware

July 2024 – August 2024

Software Engineer Intern

Jaipur, Rajasthan

- Engineered and deployed Node.js and PHP RESTful APIs powering a quiz platform supporting 1,000+ daily active users.
- Designed optimized MongoDB schemas and queries, improving leaderboard retrieval speed by 40%.
- Participated in Agile sprint cycles using Git workflows, accelerating feature delivery by 20%.

Projects

MediMate | *NLP, RAG, OpenAI API, Flask/React* | *Github*

November 2025

- Built AI-powered medical assistant achieving 90% accuracy on symptom test cases.
- Integrated OpenAI models with custom knowledge bases, boosting answer relevance by 35%.
- Structured secure patient-query logging & session tracking with role-based access, supporting 1,000+ stored interactions while maintaining privacy controls.

Vendora- Multi-Vendor Marketplace | *NextJs, MERN*

August 2025

- Architected a scalable multi-vendor marketplace to support over 2,000 buyers and 100 active sellers.
- Implemented advanced product browsing, real-time inventory updates, and secure payments handling 500+ transactions weekly
- Integrated AI based recommendation engine using OpenAI, improving discovery by 30%.

Real Time Chat App | *MERN, Socket.io* | *Live Demo* | *Github*

July 2025

- Built a production-ready chat application that can support 500+ concurrent users with a React frontend and Node.js/Express backend.
- Enabled real-time bi-directional messaging with Socket.io, enabling chat rooms, typing indicators, and user presence for live interactions.
- Redesigned backend data models, improving query times by 40% and delivering subsecond message performance.

Technical Skills

Languages: Python, Java, C, HTML/CSS, JavaScript, SQL

Backend: Node.js, Express.js, Flask

Frontend: React, Next.js, TailWind CSS

Databases: MongoDB, PostgreSQL, MySQL

AI/ML: OpenAI API, AI-driven recommendations

Technical Achievements

- Achieved 1600+ LeetCode rating by solving 500+ coding challenges involving algorithms, data structures, and optimization techniques. | [Leetcode](#)
- Attained CodeChef rating of 1400+, highlighting skills in competitive programming, algorithm design, and performance-driven coding. | [CodeChef](#)
